MADE IN ITALY

ARREDI
NIDO E
INFANZIA

Ricerca, sviluppo, innovazione

Ricerca, sviluppo, innovazione: tre vocaboli che ormai fanno parte a tutti gli effetti del linguaggio quotidiano della nostra azienda, che sintetizzano con precisione chi siamo e dove vogliamo andare, e identificano la nostra mission e il nostro focus, aiutandoci a non perdere mai di vista l'obiettivo.

Vastarredo, in relazione al mondo educativo delle scuole d'infanzia, ha voluto definire una nuova serie di oggetti che, oltre a rispondere a requisiti funzionali

legati allo svolgimento delle varie attività didattiche, siano in grado di esprimere con chiarezza contenuti e requisiti innovativi.

Per raggiungere tale obiettivo ha ritenuto necessario incentrare prioritariamente il lavoro sul metodo, vale a dire sui "PROCESSI" attraverso i quali poter giungere a delineare e definire elementi culturalmente e funzionalmente ricchi di opportunità di gioco e di esperienza.

Refugio "cucù"

IL GIOCO CUCU'

La separazione può essere problematica e vissuta come una vera e propria perdita.

Ci sono rituali che possono aiutare i bambini al distacco, per esempio la presenza di giochi particolari (Gioco del Cucù").
